DETAILED ACTION

Response to Amendment

In response to the amendment filed 2/6/2004, the drawings, specification, and claims 12-13, 16-17, and 19-21 are amended. Claims 23-25 are added. Claims 12-25 are pending.

Drawings

The drawings were received on 2/6/2004. These drawings are acceptable.

Allowable Subject Matter

Claims 12-25 are allowed. The following is an examiner's statement of reasons for allowance:

There is not taught or disclosed in the prior art a laser source generating a stable laser beam including a laser, guide means in front of the laser, and two fixed reflectors forming a plurality of external cavities in front of said laser.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments filed 2/6/2004 regarding the Ventrudo et al. (US 5,485,481) reference are persuasive. Particularly, that the undesirable and inadvertent external cavity formed

between the laser and the output end of the fiber does not form an external cavity in the sense that one skilled in the art would understand, and that Ventrudo does not disclose a plurality of fixed reflectors forming a plurality of external cavities. Ventrudo discloses only a single external cavity.

Further, the reference to Fye (previously cited US 4,840,456) appears to disclose a plurality of external reflectors, but these reflectors are not fixed as required by the present invention (they are necessarily not fixed to enable tuning) and there is not disclosed at least one of the reflectors located in the guide means as required by the present invention.
